

CS Solar 120Watt and 200Watt Fold Up Panel.

120W or 200Watt Lightweight / Rigid Folding Solar Suitcases.

- Ultra-thin frame folding solar panel.
- Portable suitcase style solar panel.
- Magnet handle instead of traditional lock for ease of use.
- Lightweight stands make this foldable panel only half of the weight of the average suitcase style panel.
- Includes a Carry Bag.
- 0.5 m Connector cable included.

(Please note that there is no charge controller included in the kit.)

The panels fold into each other with the solar cells on the outside; it is recommended to have extra protection for the panel when transporting the unit in the canopy or trailer.
